Awaken one...awaken them all. Insomniac Piper Laurel focuses on the simple things, the feel-good things. She likes her coffee black, her wine cheap, and her men gone by morning. But when

her last living relative dies, she must confront the feel-bad things. She's the last Laurel, she's almost thirty, and she's completely alone. When she returns to her sleepy seaside hometown, her ex is still as yummy as ever, and a familiar-seeming stranger is also there to tug at her heartstrings. But a love triangle isn't the only thing waiting for her. The immortal Anik has spent centuries plotting to claim the last Laurel--and a lot of innocent souls in the bargain. To survive Anik and the Realm Wars, Piper must forget her version of reality and awaken to her destiny as a Seekin, Guardian of Souls. With two men vying for her heart and hellhounds on her heels, Piper must decide who she trusts and who she loves while embracing her destiny with her eyes wide open.

Masaru Emoto's 15 extensive years of study on water has given him the background to discuss what water is, how it has been implicated in the creation of the universe, and why a perfect ratio of Love and Gratitude can help this energy can go on infinitely. This

fascinating book explains how our prayers, goodwill, and positive words heal us humans—as well as viruses and the universe as a whole—through water. Dr. Emoto explains that the fact that water has lost its true form shows that our way of living has moved away from God's will, so we should be aware of our Creator's alert to "correct the way we are living now." The information in this work is an important step in revealing how we can modify our way of living to bring about true peace on earth.

The Water Book Simon and Schuster *The Secret Intelligence of Water* takes a quantum leap from the spring board of Masaru Emoto's microscopic work with

ice crystals. Through macroscopic photography, and a groundbreaking new technique, researcher Veda Austin, allows us to view water as an intelligent force, with the power to respond to human consciousness in ways never before thought possible. Focused on the stage between liquid and ice, Veda has spent the last eight years photographing water in a state of 'creation'. She uses influences such as words, thoughts, pictures or music pre freezing, and then captures water's liquid crystal response minutes later. For example, an image of a hand will appear in the ice after the thought of a hand was sent to the water.... even simple words have manifested into form! These amazing results suggest that water is intentionally communicating through

artistic, intelligent design. The substantial visual evidence seen in this book supports the indigenous knowledge systems across the planet, that regard water as a living being. Veda believes that an emotional connection to water is key to creating change in the way we treat our natural world. She says, "If we think water can feel, we will care for it. If we think it is intelligent, we will learn from it."

The Shape of Love Simon and Schuster Masaru Emoto has photographed thousands of water crystals throughout his years of research, yet few have been as beautiful and life affirming as those formed from the words "love and gratitude." In The Miracle of Water, Dr. Emoto demonstrates how water's unique role in transporting the natural vibration

of these words can help you welcome change and live a more positive and happy life. This thoughtful book includes new and extraordinary water-crystal photographs that provide convincing reasons for all of us to choose positive words and strive for perfect resonance for a more healthy, peaceful, and happy life.
