Cambridge IGCSE™ ICT Student's Book (Collins Cambridge IGCSE™) A&C Black CLIL (Content and Language Integrated Learning) has emerged since the millennium as a major trend in education. Written by Do Coyle, Philip Hood and David Marsh and drawing on their experience of CLIL in secondary schools, primary schools and English language schools across Europe, this book gives a comprehensive overview of CLIL. It summarises the theory which underpins the teaching of a content subject through another language and discusses its practical application, outlining the key directions for the development of research and practice. This book acknowledges the uncertainty many teachers feel about CLIL, because of the requirement for both language and subject knowledge, while providing theoretical and practical routes towards successful practice for all. Cambridge IGCSE ICT Prima Lifestyles Private tutoring—supplementary, out-of-school instruction offered at a fee to individuals or groups—represents a substantial household expenditure, even in systems that claim to have free public education. It plays out across, alongside, and even within some school systems. Emerging as a 'shadow education', private tutoring now operates as a system and industry crossing national, regional, and social-class boundaries. Private tutoring is provided through different modes of delivery including the internet. Policy makers, parents, teachers, trade unions, corporations, community associations, and students are implicated in the private tutoring industry. The debates over private tutoring are therefore part of the larger struggles over the ends of education in just and equitable societies. The authors in this volume address diverse national settings of private tutoring across the Mediterranean, and examine its political,

economic, social, and cultural underpinnings. They draw on a range of conceptual frameworks, and deploy a variety of research methods to problematize the multifaceted relationships between tutoring, learning, and equity. The volume captures a multiplicity of voices, and focuses on some of the central challenges facing education in pluralistic societies
