Your Guide to Downtown Denise Scott Brown Penguin

The stories and accounts of Kentucky basketball's players, iconic coaches, and epic games have been told and retold, but lesser known are the stories of the arenas and venues that have been home to the Wildcats—buildings that have witnessed the sights, sounds, and shared spirit of the Big Blue Nation for over a century. In *House of Champions: The Story of Kentucky Basketball's Home Courts*, author Kevin Cook combines archival research and numerous interviews with players and coaches to reveal the rich history and colorful details of the structures that have hosted University of Kentucky basketball. A number of fascinating backstories are uncovered, including the excitement of Alumni Gym's opening night in 1925, the problematic acquisition of Black community land for the building of Memorial Coliseum, and the painstaking inscription of nearly ten thousand names of Kentucky's World War II and Korean War heroes to be displayed along the Coliseum's pedestrian ramps. The account concludes with a compelling overview of the development of historic Rupp Arena: its inner workings, the prominent figures involved, and how the initial conversation to build it began over a slice of Jerry's pie in 1968. This insightful and entertaining history reveals how the impact of sporting facilities extends far beyond game night as they continue to shape and influence the social, economic, and political landscapes of Lexington and central Kentucky.

Following its rise to prominence in the 1990s work on territory, the state and urban politics continues to be a vibrant and dynamic area of academic concern. Focusing heavily on the work of one key influential figure in the development of the field - Kevin R. Cox - this volume draws together a collection of prominent and well established scholars to reflect on the development and state of the field and to establish a research agenda for future work.

Why is public space disappearing? Why is this disappearance important to democratic politics and how has it become an international phenomenon? Public spaces are no longer democratic spaces, but instead centres of private commerce and consumption, and even surveillance and police control. "The Politics of Public Space" extends the focus of current work on public space to include a consideration of the transnational - in the sense of moving people and transformations in the nation or state - to expand our definition of the 'public' and public space. Ultimately, public spaces are one of the last democratic forums for public dissent in a civil society. Without these significant central public spaces, individuals cannot directly participate in conflict resolution. "The Politics of Public Space" assembles a superb list of contributors to explore the important political

dimensions of public space as a place where conflicts over cultural and political objectives become concrete.

This book introduces and critically explores walking as an innovative method for doing social research, showing how its sensate and kinaesthetic attributes facilitate connections with lived experiences, journeys and memories, communities and identities. The book situates walking methods historically, sociologically, and in relation to biographical and arts-based research, as well as new work on mobilities, the digital, spatial, and the sensory. The book is organised into three sections: theorising; experiencing; and imagining walking as a new method for doing biographical research. There is a key focus upon the Walking Interview as a Biographical Method (WIBM) on the move to usefully explore migration, memory, and urban landscapes, as part of participatory, visual, and ethnographic research with marginalised communities and artists and as re-formative and transgressive. The book concludes with autobiographical walks taken by the authors and a discussion about the future of the walking interview as biographical method. Walking Methods combines theory with a series of original ethnographic and participatory research examples. Practical exercises and a guide to using walking as a method help to make this a rich resource for social science researchers, students, walking artists, and biographical researchers.

Annotation Downtown is the first history of what was once viewed

as the heart of the American city. Urban historian Robert Fogelson gives a riveting account of how downtown--and the way Americans thought about it--changed between 1880 and 1950. Recreating battles over subways and skyscrapers, the introduction of elevated highways and parking bans, and other controversies, this book provides a new and often startling perspective on downtown's rise and fall.

Exhuming the little blue dress that launched the biggest media circus of a generation, this barbed spin on a political drama conjures the five women who collided in what became known as The Lewinsky Scandal. Hillary Clinton and Monica Lewinsky find themselves centre stage in a theatrical feat that takes us through the corridors of power and behind the closed doors where the abuse of that power took place. Devil with the Blue Dress grapples with one of the most challenging questions in American political history: How do we respond to women seeking power, and the men who abuse it?

From rock'n'roll to contemporary pop, *Mixing Pop and Politics* is a provocative and entertaining mash-up of music and Marxist theory. A radical history of the political and social upheavals of the last 70 years, told through the period's most popular music. *Mixing Pop and Politics* is not a history of political music, but a political history of popular music. Spanning the early 50s to the present, it shows how, from doo-wop to hip-hop, punk to crunk and grunge to grime, music has both reflected and resisted the political events of its era. *Mixing Pop and Politics* explores the connections between popular music and political ideology, whether that's the liberation of rock'n'roll or the containment of girl groups, the refusal of glam or the resignation of soft rock, the solidarity of disco or the individualism of 80s pop. At a time when reactionary forces are waging political war in the realm of culture, and we're being told to keep politics out of music, *Mixing Pop and Politics* is a timely, original and joyful exploration of popular music's role in our society.

This study of the Japanese LGBTQ+ community sheds light on the intersectionality of lived experiences, including gender, sexuality, family, (mental) health, race and ethnicity, migration, and nationality, offering a picture of a community whose experience is deeply embedded in the dynamic society around. The Japanese LGBTQ+ Community in the World takes an innovative approach, viewing the community as an integral part of the world in flux,

rather than an isolated monoracial and monolingual tight-knit entity. Like the US and many other countries in the world, when the pandemic struck Japan, its citizens were not all equally equipped to withstand it. Due particularly to lingering systemic injustices, including stigma, ostracism from family and society, as well as lack of legal protection of their basic human rights, the pandemic has disproportionately affected the lives of LGBTQ+ individuals and couples in Japan. They face unique challenges within various facets of their lives. Their experiences are an integral part of understanding how this pandemic is affecting a societal response to an already marginalized group of individuals. This important study looks at the issues from a range of perspectives including public health care services, the media and cross-cultural experience. This book is ideal for students and scholars of gender studies, LGBTQ studies, sociology, health, and Asian studies.
