The Coach: Winning at Personal Finance is a simple yet powerful and beneficial book for those wanting to improve their personal and family finances. It is densely packed with fundamental defensive money management techniques, including establishing the all-important emergency

fund, eliminating debt, and preparing for retirement by becoming financially independent. These money-management techniques, along with eight others, are shared by the Coach, David G. Giese. The educational process used by David aligns the eleven proven financial techniques with each of the eleven defensive positions on a football field. The theme in the book is that wealth is achieved by what you save and invest, not by what you earn. Though money management is complex, lets remind ourselves of some basics of the topic. David believes that we all want two things when it comes to money. One, we want to enjoy today, our lifestyle, and the things

money can purchase. Two, we know someday we want to stop earning and have enough money to carry us throughout retirement. The interesting challenge about those two universal desires is that one objective pulls from the other. Therein lies the challenge. The keys to successfully navigating those two desires around money are balance, discipline, and fundamental money-management techniques that David shares in this book. To have money for our future, we have to save some today. Thus, we have to spend less than we earn. Invest in this book and learn how you can achieve both a pleasant lifestyle today as well as financial independence in your

future.

When you ask most

people, they will tell you they never expected the FIRE movement to get so popular. Foregoing the pleasures of life and saving 50%+ of income in order to retire at 30 or 40 is not an easy thing to do. In 2020, the FIRE movement is at its peak. Unfortunately, that means there's no more rising—the only way to go is down. Every day, you see a story of someone who retired early and how they achieved that. This is how you know that FIRE is at its peak. Any investor knows that when you see the news in print, you cannot invest because it is too late. But it is usually a great time to sell. Investors try to forecast the future. Building true wealth is not just about making

money. At some point, you have seen happy poor people and miserable rich people. According to research, the relationship between happiness and money is small. The following ten principles will help you attain true wealth, personally and financially. Become Deeply Motivated - Money cannot be considered a deep motivator. Financial wealth has external benefits. With money, you can have big bank accounts, fancy houses, etc. but you cannot buy happiness. Since external goals have inherent limits, they will limit your motivation.

Doing well with money isn't necessarily about what you know. It's

about how you behave. And behavior is hard to teach, even to really smart people. Money - investing, personal finance, and business decisions - is typically taught as a math-based field, where data and formulas tell us exactly what to do. But in the real world people don't make financial decisions on a spreadsheet. They make them at the dinner table, or in a meeting room, where personal history, your own unique view of the world, ego, pride, marketing, and odd incentives are scrambled together. In *The Psychology of Money*, award-winning author Morgan Housel shares 19 short stories exploring the strange ways people think about money and teaches you how to

make better sense of one of life's most important topics. Praise for the book: 'It's one of the best and most original finance books in years.' - Jason Zweig, *The Wall Street Journal* 'The Psychology of Money is bursting with interesting ideas and practical takeaways. Quite simply, it is essential reading for anyone interested in being better with money. Everyone should own a copy.' - James Clear, Author, million-copy bestseller, *Atomic Habits* 'Few people write about finance with the graceful clarity of Morgan Housel. The Psychology of Money is an essential read for anyone who wants to make wiser decisions or live a richer life.' - Daniel H. Pink, #1 New

*York Times* Bestselling Author of *When, To Sell Is Human*, and *Drive* 'Morgan Housel is that rare writer who can translate complex concepts into gripping, easy-to-digest narrative. The Psychology of Money is a fast-paced, engaging read that will leave you with both the knowledge to understand why we make bad financial decisions and the tools to make better ones.' - Annie Duke, Author, *Thinking in Bets* 'Housel's observations often hit the daily double: they say things that haven't been said before, and they make sense.' - Howard Marks, Director and Co-Chairman, *Oaktree Capital* & Author, *The Most Important Thing* and *Mastering the Market Cycle* 'Morgan

Housel is one of the brightest new lights among financial writers. He is accessible to everyone wanting to learn more about the psychology of money. I highly recommend this book.'
