The Southern Railway between 1923 and 1939 was the only British company to carry out a sustained programme of electrification which became known as the Southern Electric. Unlike many recent projects, each incremental step was completed on time and within budget. This successful project was more impressive as it was achieved during a period of economic stagnation (including the 'great depression') and despite government disapproval of the method of electrification. The driving force behind this endeavor was the railway's general manager, Sir Herbert Walker, but at his side was his electrical engineer, Alfred Raworth, the man one journalist described as an 'electrification genius'. Alfred Raworth's career began working with his father the eminent consulting engineer and entrepreneur, John Smith Raworth. Following the collapse of his father's business Alfred joined the railway industry and devised an ambitious and innovative electrification design. This was discarded when the railways of southern England were 'grouped' into the Southern Railway after which he took responsibility for the implementation of the electrification schemes. With Walker's retirement in 1937, those who continued to support steam traction took the policy lead. A marginalised Raworth retired but was later to witness the fruition of many of his discarded ideas.

Spon's Mechanical and Electrical Services Price Book 2005 is still the only annual services engineering price book available anywhere. This annual guide to pricing electrical and mechanical services installation contains material prices, labour elements and

measured works prices for mechanical contracts from pipework to ductwork and heating systems to air conditioning. Electrical contacts are also covered, from power supply through to light switches. Updates to the 2005 edition will provide a general review of all sections, include pipe-in-pipe, plastic piping for chilled and heating water, and give an expanded coverage of heat exchanges and condensing boilers. Its free CD
Middle East Economic Digest Springer Science & Business Media
Spon's Mechanical and Electrical Services Price Book 2003 is still the only annual services engineering price book available anywhere. This annual guide to pricing electrical and mechanical (HEVAC) services installation contains material prices, labour elements and measured works prices for mechanical contracts from pipework to ductwork and heating systems to air conditioning. Electrical contacts are also covered, from power supply through to light switches. The M&E comes with a 'free' CDROM that enables the reader to view the entire book on screen, cut and paste prices into other tender documents, export to other major packages, perform simple calculations, index search, produce estimate and tender documents, adjust rates and data. With the added bonus of the Approximate Estimating sections enabling quick, rule-of-thumb pricing, with detailed data and analysis, the 2003 edition of the Mechanical and Electrical Services Price Book provides the definitive estimating toolkit for the construction, building and surveying industries. New Features for 2003 The approximate estimating section now includes: Wider range of building types for both elemental and all-in m2 rates All-in rates for pipework In the Measured works section: The electrical section is now in line with the CAWS that SMM7 follows Added information on access control and security detection and alarm The mechanical section includes more information on plant and equipment (i.e. chillers and heat rejection equipment, condensing

boilers, terminal units, under floor heating, BMS and controls, and fire rated ductwork).

Popular Mechanics Pen and Sword Transport

Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY

home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle. *Financial Times Industrial Companies Elsevier* Laxton's gives you access to the most reliable and current data. All 250,000 price elements have been individually checked and updated for the 2002 edition so that your estimates are always accurate and cost competitive. Laxton's makes analytical estimating simple and straightforward by displaying a complete breakdown for all measured items under 10 separate headings, all on a single page. This shows you a complete price build-up at a glance - and gives you the option to make price adjustments wherever necessary. You can find the sections you need quickly and easily, via the special marker system on the front cover and page edges. The free CD with this price book contains Masterbill's ESTIMATOR software and fully resourced data on all the price elements in Laxton's. Not only does the CD offer fast and efficient pricing at the touch of a button, it gives details of all the resources required to do the job. Laxton's approximate estimating section gives all in pricing for quick reference on the cost of composite items such as floors helping you calculate the cost implications of using plywood sheeting rather than softwood boarding, for example. Laxton's Basic Price section gives you a quick price on hundreds of items - from concrete work to roofing materials - to save you going through hundreds of lists from suppliers, manufacturers and building merchants. Laxton's Brand

and Trade Names section lists over 12,000 brands and trade names and company addresses to help you locate specific items.
