## IVY MELENDEZ

### **Assessing the Implementation of the Small Business Act for Europe** OECD Publishing

This book describes the different types of financial education programmes currently available in OECD countries, evaluates their effectiveness, and makes suggestions to improve them.

### *Financial Inclusion, Regulation, and Education* OECD Publishing

SMEs play an important role for economic growth and social inclusion in Indonesia. Based on data from the Ministry of Co-operatives and SMEs, Indonesian SMEs account for nearly 97% of domestic employment and for 56% of total business investment.

### *OECD Economic Surveys: Turkey 2021* OECD Publishing

The 9th edition of the Scoreboard on Financing SMEs and Entrepreneurs report provides data from 48 countries around the world on SME lending, alternative finance instruments and financing conditions, as well as information on policy initiatives to improve SME access to finance.

### *OECD Studies on SMEs and Entrepreneurship Entrepreneurship Policies through a Gender Lens* OECD Publishing

This report monitors SME and entrepreneur access to finance in 37 countries.

### *OECD Reviews of Innovation Policy Innovation in Southeast Asia* OECD Publishing

This book provides policy guidance to help policy makers address women's and girls' needs for financial education, and a comprehensive analysis of the current status of knowledge on gender differences in financial literacy and policy responses in terms of financial education for women and girls.

### *SME Policy Index: Western Balkans and Turkey 2019 Assessing the Implementation of the Small Business Act for Europe* OECD Publishing

Economic and social progress requires a diverse ecosystem of firms that play complementary roles. Making It Big: Why Developing Countries Need More Large Firms constitutes one of the most up-to-date assessments of how large firms are created in low- and middle-income countries and their role in development. It argues that large firms advance a range of development objectives in ways that other firms do not: large firms are more likely to innovate, export, and offer training and are more likely to adopt international standards of quality, among other contributions. Their particularities are closely associated with productivity advantages and translate into improved outcomes not only for their owners but also for their workers and for smaller enterprises in their value chains. The

challenge for economic development, however, is that production does not reach economic scale in low- and middle-income countries. Why are large firms scarcer in developing countries? Drawing on a rare set of data from public and private sources, as well as proprietary data from the International Finance Corporation and case studies, this book shows that large firms are often born large—or with the attributes of largeness. In other words, what is distinct about them is often in place from day one of their operations. To fill the “missing top†? of the firm-size distribution with additional large firms, governments should support the creation of such firms by opening markets to greater competition. In low-income countries, this objective can be achieved through simple policy reorientation, such as breaking oligopolies, removing unnecessary restrictions to international trade and investment, and establishing strong rules to prevent the abuse of market power. Governments should also strive to ensure that private actors have the skills, technology, intelligence, infrastructure, and finance they need to create large ventures. Additionally, they should actively work to spread the benefits from production at scale across the largest possible number of market participants. This book seeks to bring frontier thinking and evidence on the role and origins of large firms to a wide range of readers, including academics, development practitioners and policy makers.

### **Financing Micro, Small, and Medium Enterprises** World Bank Publications

This report evaluates how to strengthen Thailand's SME and entrepreneurship policies to promote innovative entrepreneurship and SME innovation at regional level. This is critical in supporting a shift towards a more innovation-driven and regionally-balanced economy in Thailand.

### *PISA 2018 Assessment and Analytical Framework* OECD Publishing

This report presents the conceptual foundations of the OECD Programme for International Student Assessment (PISA), now in its seventh cycle of comprehensive and rigorous international surveys of student knowledge, skills and well-being. Like previous cycles, the 2018 assessment covered reading, mathematics and science, with the major focus this cycle on reading literacy, plus an evaluation of students' global competence – their ability to understand and appreciate the perspectives and world views of others. Financial literacy was also offered as an optional assessment.

### *Financing SMEs and Entrepreneurs 2016 An OECD Scoreboard* OECD Publishing

Smaller companies are abundant in the business realm and outnumber large companies by a wide margin. Understanding the inner workings of small businesses offers benefits to the consumers and the economy. The Handbook of Research on Intrapreneurship and Organizational Sustainability in SMEs is a critical scholarly resource that examines the strategies and concepts that will assist small

and medium-sized enterprises to achieve competitiveness. Featuring coverage on a broad range of topics such as financial management, corporate sustainability, and organizational culture, this publication is geared towards business managers, professionals, graduate students, and researchers working in the field of smaller-scale business development initiatives.

[PISA 2015 Assessment and Analytical Framework Science, Reading, Mathematic, Financial Literacy and Collaborative Problem Solving](#) OECD Publishing

This publication presents the findings of the OECD review of SME and Entrepreneurship Policy in Viet Nam. It offers an in-depth examination of the performance of small and medium enterprises (SMEs) and entrepreneurship in Viet Nam, the quality of the business environment, and national policies in support of new and small businesses.

[SME Policy Index: Western Balkans and Turkey 2012 Progress in the Implementation of the Small Business Act for Europe](#) OECD Publishing

The importance of financial inclusion is increasingly recognized by policymakers around the world. Small and medium-sized enterprise (SME) financial inclusion, in particular, is at the core of the economic diversification and growth challenges many countries are facing. In the Middle East and Central Asia (MENAP and CCA) regions, SMEs represent an important share of firms, but the regions lag most others in terms of SME access to financing.

OECD Publishing

This review provides a quantitative and qualitative assessment of Southeast Asian countries' capacity in S&T and innovation.

**Improving Financial Literacy Analysis of Issues and Policies** OECD Publishing

This report examines Israel's performance in stimulating SMEs and entrepreneurship and makes recommendations for government policy.

[Financing SMEs and Entrepreneurs 2017 An OECD Scoreboard](#) World Bank Publications

The government of Kazakhstan has set an objective to substantially increase the contribution of SMEs and entrepreneurs to employment and value added in the economy. Although there are large numbers of SMEs and entrepreneurs in the country, achieving this growth will require a step change...

[OECD Studies on SMEs and Entrepreneurship SME and Entrepreneurship Policy in Israel 2016](#) OECD Publishing

Financial inclusion and financial education are becoming increasingly recognized as key requirements for sustainable and inclusive growth, and have been recognized as such by international fora such the Group of Twenty (G20) and the OECD. However, countries in Central Asia and the South Caucasus region have generally lagged in this area. Aside from Kazakhstan, the levels of financial inclusion are substantially below the average level of developing economies. Moreover,

there has been little study of the determinants of and barriers to the development of financial inclusion and financial literacy in this region. In this study, prominent scholars in each country examine recent trends in financial inclusion in seven countries--Armenia, Azerbaijan, Georgia, Kazakhstan, Kyrgyz Republic, Tajikistan and Uzbekistan--for both individuals and small and medium-sized firms (SMEs); institutional and regulatory barriers to the expansion of financial inclusion; and policy options to support greater financial inclusion while maintaining financial stability. The book also examines issues related to the assessment of financial literacy and promotion of financial education to support greater financial inclusion in the region. One prominent feature of the region is the relatively slow uptake of innovative financial technologies that could promote financial inclusion such as mobile phone banking, crowd funding and peer-to-peer (P2P) lending platforms. This book examines the barriers to such development, as recommends policies to facilitate the introduction of such technologies.

[Financing SMEs and Entrepreneurs 2020 An OECD Scoreboard](#) World Scientific

The 8th edition of the Scoreboard on SME and Entrepreneurship Finance report provides data from 46 countries around the world on debt finance, alternative finance instruments and financing conditions, as well as information on policy initiatives to improve their access to finance.

**An OECD Scoreboard** OECD Publishing

The pandemic recession in 2020 was milder than in most other OECD countries, but recent outbreaks have prompted the country to begin transitioning from a zero tolerance to a containment approach to the virus. As the recovery becomes more firmly entrenched, public policy must focus on setting the conditions for another prolonged period of strong and well-distributed growth in living standards.

[Women and Financial Education Evidence, Policy Responses and Guidance](#) OECD Publishing

This publication examines how to strengthen the scope and effectiveness of entrepreneurship policies for women. It examines both dedicated measures for women and ensuring that mainstream policies for all entrepreneurs are appropriate for women. Evidence is offered on the gender gap in entrepreneurship and its causes.

[Making It Big](#) IGI Global

What is important for citizens to know and be able to do? The OECD Programme for International Student Assessment (PISA) seeks to answer that question through the most comprehensive and rigorous international assessment of student knowledge and skills.

[Promoting Better Lifetime Planning Through Financial Education](#) OECD Publishing

The 8th edition of the Scoreboard on SME and Entrepreneurship Finance report provides data from 46 countries around the world on debt finance, alternative finance instruments and financing conditions, as well as information on policy initiatives to improve their access to finance.
