Athens in Paris explores the ways in which the writings of the ancient Greeks played a decisive part in shaping the intellectual projects of structuralism and post-structuralism - arguably the most significant currents of thought of the post-war era. Miriam Leonard argues that thinkers in post-war France turned to the example of Athenian democracy in their debates over the role of political subjectivity and ethical choice in the life of the modern citizen. The authors she investigates, who include Lacan, Derrida, Foucault, and Vernant, have had an incalculable influence on the direction of classical studies over the last thirty years, but classicists have yet to give due attention to the crucial role of the ancient world in the development of their philosophy.

Athens in Paris F.A. Davis

Building on recent theories of interactive governance and political leadership, *Interactive Political Leadership* develops a concept of interactive political leadership and a theoretical framework for studying the role of elected politicians in the age of governance. The purpose of the theoretical framework is to inspire and guide empirical research into how elected politicians perform political leadership in a society where citizens and other stakeholders play an active role in making and implementing political decisions and what barriers, challenges, and dilemmas they encounter in relation to the performance of interactive political leadership. The research framework draws extensively on recent theories of interactive governance and political leadership and other new developments in political science and public administration research. Moreover, it finds inspiration in current tendencies and embryonic examples of interactive political leadership performed by elected politicians operating at different levels of governance

in Western liberal democracies. The basic assumption is that political legitimacy is essential for the survival of a political system, and that interactive political leadership stands out as a promising way of securing what political scientists denote as input-, throughput-, output-, and outcome legitimacy in the age of governance. Hence, interactive political leadership aims to establish a bridge between representative democracy and emergent forms of political participation, to promote political learning and accountability, to strengthen the political entrepreneurship of elected politicians, and to advance the political system's implementation capacity through resource mobilization. The book develops 20 propositions that sets the agenda for a new and much needed field of empirical research into political leadership in the age of governance.

Inpatient Obstetric Nursing F A Davis Company

For courses in Pediatric Nursing. A comprehensive survey of family-centered pediatric nursing care *Child Health Nursing: Partnering with Children & Families* promotes excellence in nursing care for infants, children, and adolescents--in hospitals and in the community. It focuses on the importance of partnering with families to adapt care plans for children based on their age, health status, and social and cultural influences. The text considers the impact of contemporary care environments on nursing practice, both in health promotion and in the care of children with acute or chronic health conditions. By offering industry best practices and practical applications, the book encourages students to apply evidence-based findings and clinical

reasoning to planning superior care. The updated 3rd edition explains how modern nursing practice is affected by reforms to healthcare and its delivery—such as electronic health records, new approaches to chronic and acute condition management, and a focus on prevention. To support safe, effective, and innovative care, this edition draws on the latest recommendations of NANDA International diagnoses, Nursing Intervention Classifications (NIC), Nursing Outcomes Classifications (NOC), and Healthy People 2020. Also available with MyLab Nursing MyLab(tm) Nursing is an online self-study and class preparation program designed to engage students and improve results. A Q&A Review Applying Critical Thinking to Test Taking F A Davis Company
Prioritization, Delegation, and Assignment: Practice Exercises for the NCLEX® Examination is the only review book on the market with a focus on prioritization and management of care—just like the current NCLEX Examination itself! The workbook's unique approach establishes your foundational knowledge and then provides exercises of increasing difficulty to help you build confidence in your prioritization, delegation, and patient assignment skills. It offers unique preparation for the NCLEX Examination and effectively equips you to practice in today's fast-paced healthcare environment. The only workbook available that provides in-depth practice with prioritization, delegation, and assignment questions similar to those you'll see on the NCLEX Examination, including questions in alternate item formats Unique three-part organization that (1) equips you with foundational skills to make sound decisions, then helps you apply those skills (2) in straightforward scenarios and (3) then in complex health scenarios In-depth Answer Key at the back of the book that provides not only the correct answer but also a detailed rationale and an indication of the focus of the question, whether prioritization, delegation, supervision, or patient assignment. Expanded content focus to include psychiatric/mental health, OB/maternity, and pediatrics along with med-surg areas New chapters on infection control and obstetrics and maternity Greater emphasis on questions involving core body systems and related health problems, such as diabetes and cancer, to best prepare you for the conditions you are most likely to encounter on the NCLEX Examination and in clinical practice Four new unfolding cases addressing long-term care, pediatrics, psychiatric/mental health nursing, and OB/maternity Additional emphasis on

medication safety equips you to take appropriate actions to prevent or remediate medication errors Multiple-select questions revised to include at least 5 response choices each, keeping you up to date with the full range of NCLEX Examination item formats
Maternity & Women's Health Lippincott Williams & Wilkins
This resource provides a core content review of the subject in outline format. Each chapter opens with a brief outline, objectives, key terms with definitions, media box with summary of the CD, as well as a pre-test. The pre-test and post-test guide the student through a self-paced review.

2 Practice Tests + Proven Strategies + Online + Video Lippincott Williams & Wilkins
