The Socio-Intellectual Foundations of Malek Bennabi's Approach to Civilization (Russian Language)

The world was wild for gold. After discovering the Americas, and under pressure to defend their vast dominion, the Habsburgs of Spain promoted gold and

silver exploration in the New World with ruthless urgency. But, the great influx of wealth brought home by plundering conquistadors couldn't compensate for the Spanish government's extraordinary military spending, which would eventually bankrupt the country multiple times over and lead to the demise of the great empire. Gold became synonymous with financial dependability, and following the devastating chaos of World War I, the gold standard came to express the order of the free market system. Warfare in pursuit of wealth required borrowing—a quickly compulsive dependency for many governments. And when people lost confidence in the

promissory notes and paper currencies issued during wartime, governments again turned to gold. In this captivating historical study, Kwarteng exposes a pattern of war-waging and financial debt—bedmates like April and taxes that go back hundreds of years, from the French Revolution to the emergence of modern-day China. His evidence is as rich and colorful as it is sweeping. And it starts and ends with gold.

 Odată creat și mai apoi transmis, orice produs sau bun cultural tinde să devină, treptat și urmând un proces aproape natural, un bun cu valoare identitară, fie particulară fie universală, adică, de fapt, o formă de patrimoniu. Ce este patrimoniul cultural și cum se constituie el? Care este natura reprezentărilor și proceselor formative ale patrimoniului? Cum influențează noile mijloace de comunicare și socializare, noul mediu socio-economic, reprezentările ce îl alcătuiesc? Care este natura relației dintre patrimoniul cultural și mecanismele identitare? Cum pot fi caracterizate diferitele tipuri de identități în

cadrul unei astfel de relații și care-i sunt mijloacele de reprezentare specifice? Iată tot atâtea întrebări care au stat la baza unei cercetări aprofundate cu privire la definirea și implicațiile patrimoniului cultural în viețile noastre, ale cărei răspunsuri îmbracă forma contribuțiilor ce alcătuiesc prezentul volum.

This reference book is intended to help teachers, teacher administrators, policy makers and others deal with the important issue of religious diversity in Europe's schools. The religious

dimension of intercultural education is an issue that affects all schools, whether they are religiously diverse or not, because their pupils live and will work in increasingly diverse societies. The book is the main outcome of the project 'The Challenge of intercultural education today: religious diversity and dialogue in Europe', developed by the Council of Europe between 2002 and 2005. It is in four parts: theoretical and conceptual basis for religious diversity and intercultural education; educational conditions and methodological approaches; religious diversity in schools in different settings; examples of current practice in some member states of the Council of Europe.

Cuvânt înainte de Gabriel Liiceanu „Noi ne acceptăm eroii abia atunci când și-au luat locul într-un trecut care nu ne obligă. Cât sunt vii, preferăm să le împrumutăm urâtenia noastră decât să imităm frumusețea lor. Adevărul e că, de peste două decenii, Doina Cornea n-a mai existat pentru noi. N-a devenit un model, așa cum s-ar fi convenit. Nu i s-a mai cerut părerea, pentru a acompaña cu rectitudinea spiritului ei toate strămbătățile care au pus treptat stăpânire pe noi. Cei care fac opinia publică în țara asta au uitat-o repede și și-au amintit, scurt, de ea abia când a plecat dintre noi. Făcând ce a făcut, Doina Cornea n-a așteptat nimic de la

nimeni. Dialogul ei cu libertatea l-a purtat în absoluta lui gratuitate: fără punerea în scenă a unei parade etice și fără gândul de a prezenta vreodată nota finală societății care beneficiase de pe urma îndrăznelii ei. Disidența Doinei Cornea n-a fost, până la urmă, decât expresia publică pe care a căpătat-o, în chip firesc, o devenire interioară.” – Gabriel Liiceanu

Using modern knowledge to shed light on ancient techniques, this text examines two of the earliest therapeutic techniques of Chinese medicine: acupuncture and moxibustion. Acupuncture is the implantation of very thin needles into

subcutaneous connective tissue and muscle at a great number of different points on the body's surface; moxibustion is the burning of Artemisia tinder (moxa) either directly on the skin or just above it. For 2500 years the Chinese have used both techniques to relieve pain and to heal a wide variety of illnesses and malfunctions. Providing a full historical account of acupuncture and moxibustion in the theoretical structure of Chinese medicine, Doctors Lu and Needham combine it with a rationale of the two techniques in the light of modern scientific knowledge. *Puterea fragilitatii*

 Since the publication of Samuel Huntington's "The Clash of Civilizations" concern about civilization has been reintroduced into the debate on the world order. Malek Bennabi (1905-1973), prominent Algerian thinker and great Muslim intellectual, intently focused on unraveling the causes of Muslim decline and the success of Western civilization and culture. The key problem he theorized lay not in the Qur'an or Islamic faith but in Muslims themselves. The author investigates Bennabi's approach to civilization and the fundamental principles drawn, using metatheorizing methodology. In doing so he sheds further light on perhaps one of

the more intriguing elements of Bennabi's theory, that civilization is governed by internal-external and social-intellectual factors and that an equation can be generated for civilization itself. This equation of Man+Soil+Time = Civilization and of which religion, according to Bennabi, forms the all-important catalyst, is explained and its significance in terms of the reversal of Muslim decline evaluated. What is clearly apparent is that for Bennabi, Man is the central force in any civilizing process and without him the other two elements are of no value. With regard to outcomes, Bennabi's unerring conviction that unless Muslims changed their spiritual

condition, they could not affect any far-reaching, meaningful change in society is echoed in the Qur'anic verse: "Verily, never will Allah change the condition of a people until they change what is in themselves" (13:11).

spiritual regression techniques that take hypnotic subjects back to their time in the spirit world. His two best-selling books of client case studies, *Journey of Souls* and *Destiny of Souls*, have left thousands of readers eager to discover their own afterlife adventures, their soul companions and guides, and their purpose in this lifetime. Now, for the first time in print, Dr. Newton reveals his step-by-step methods. His experiential approach to the spiritual realms sheds light on the age-old questions of who we are, where we came from, and why we are here. This groundbreaking guidebook, designed for both hypnosis professionals and the general public,

completes the afterlife trilogy by Dr. Newton. *Celestial Lancets* Grup Editorial Litera This book provides a clear overview of current thinking on the teaching and learning of geography. It is an ideal companion to all students beginning a career in teaching the subject in secondary schools. The chapters are written by experienced teacher educators and bridge both theory and practice. The writers focus on the continuities, whilst setting them in the context of the changing curriculum. The book is divided into four parts. Part One examines the historical context of geography teaching. Part Two looks at issues of course planning, design,

syllabuses and programmes of study. Underlying this section is the assumption that geography should not be considered in isolation from other subjects, but rather as part of a whole curriculum. Part Three concentrates on teaching and learning, and includes chapters on the use of maps, field work, IT and first hand experience within a community. The final section covers the issues associated with assessment, across the whole school age range.

connect with and comfort the living The soul-brain connection Why we choose certain bodies Expositional Preaching Hay House, Inc A bold account of the development of human consciousness and spirituality over the ages and an examination of the dynamic global transformation of attitudes about healing. For more than fifteen years, Caroline Myss has studied why some people heal, while others do not. In her previous book, *Anatomy of the Spirit*, Dr. Myss illuminated the hidden interactions of belief and body, soul and cell to show how, as she inimitably puts it, "your biography becomes your biology." In *Why People Don't Heal and How They*

Can, she builds on her earlier teachings of the seven different energy centers of the body to provide a vital self-healing program for physical and spiritual disorders. With her characteristic no-nonsense style and high-voltage storytelling, she exposes and explodes the five myths about healing, explains the cultural and individual contexts in which people become physically and spiritually ill and invested in "woundology," and teaches new methods of working with the challenges that the seven energy centers embody. To help you get and stay on the path to wellness, Dr. Myss provides rituals and prayers for gaining a symbolic perspective

on your life issues; for bolstering your personal power; and for connecting with a universal divine energy. Dr. Myss's breakthrough views on energy medicine and her active approach to healing life issues and physical illness will help you overcome the mental blocks that keep you from becoming well.
