I AM ZLATAN - the explosive, critically-acclaimed memoir of Zlatan Ibrahimovic, one of the world's most gifted and controversial footballers 'Guardiola has no balls. He drove me like a Fiat . . . I'm a Ferrari' Zlatan Ibrahimovic - professional football's most mercurial player, Swedish national hero, tabloid fixture, fashion icon, modern-day philosopher and black belt in Taekwondo. Born to a Muslim father from Bosnia, and a Catholic mother from Croatia, Zlatan recounts his extraordinary life story, from his poverty-stricken upbringing as an outsider in Malmö, Sweden, to becoming one of the world's most sought-after and expensive players, gracing Europe's finest clubs, from Ajax to Juventus, Internazionale to Barcelona, Milan to Paris Saint-Germain. **I AM ZLATAN** reveals a rare and ferocious intelligence, willpower and God-given talent most recently exhibited when Zlatan scored all 4 goals for Sweden in a 4-2 victory against England. His fourth goal, a 30-yard overhead kick with his back to goal is widely regarded as one of the greatest goals of all time. The BBC described it as a goal that 'combined unfathomable imagination and expert technique'. For fans of *The Secret Footballer* and *Football Manager Stole My Life* this no holds barred football memoir is every bit as dramatic and revealing as Roy Keane's classic autobiography. 'The best footballer's autobiography of recent years is probably *I Am Zlatan Ibrahimovic* . . .' Simon Kuper, author of *Why England Always Lose* 'Eagerly awaited, not least because Ibra seems to be spoiling for a fight on every other page. 'Dynamite' said one Swedish reporter' Daily Mail on **I AM ZLATAN**

The #1 New York Times bestseller from Walter Isaacson brings Leonardo da Vinci to life in this exciting new biography that is "a study in creativity: how to define it, how to achieve it...Most important, it is a powerful story of an exhilarating mind and life" (The New Yorker). Based on thousands of pages from Leonardo da Vinci's astonishing notebooks and new discoveries about his life and work, Walter Isaacson "deftly reveals an intimate Leonardo" (San Francisco Chronicle) in a narrative that connects his art to his science. He shows how Leonardo's genius was based on skills we can improve in ourselves, such as passionate curiosity, careful observation, and an imagination so playful that it flirted with fantasy. He produced the two most famous paintings in history, The Last Supper and the Mona Lisa. With a passion that sometimes became obsessive, he pursued innovative studies of anatomy, fossils, birds, the heart, flying machines, botany, geology, and weaponry. He explored the math of optics, showed how light rays strike the cornea, and produced illusions of changing perspectives in The Last Supper. His ability to stand at the crossroads of the humanities and the sciences, made iconic by his drawing of Vitruvian Man, made him history's most creative genius. In the "luminous" (Daily Beast) Leonardo da Vinci, Isaacson describes how Leonardo's delight at combining diverse passions remains the ultimate recipe for creativity. So, too, does his ease at being a bit of a misfit: illegitimate, gay, vegetarian, left-handed, easily distracted, and at times heretical. His life should remind us of the importance to be imaginative and, like talented rebels in any era, to think different. Here, da Vinci "comes to life in all his remarkable brilliance and oddity in Walter Isaacson's ambitious new biography...a vigorous, insightful portrait" (The Washington Post).

In contemporary society, the cult of celebrity is inescapable. Anyone can be turned into a celebrity, and anything can be made into a celebrity event. Celebrity has become a part of everyday life, a common reference point. But how have people like Elvis Presley, John Lennon, Bill Clinton or Princess

Diana impressed themselves so powerfully on the public mind? Do they have unique qualities, or have their images been constructed by the media? And what of the dark side of celebrity - why is the hunger to be in the public eye so great that people are prepared to go to any lengths to achieve it, as numerous mass murderers and serial killers have done. Chris Rojek brings together celebrated figures from the arts, sports, politics and other public spheres, from O.J. Simpson and Marilyn Monroe to Hitler and David Bowie, and touches on many movements and fads, including punk, rock-and-roll and fashion. Rojek analyzes the difference between ascribed celebrity, which derives from bloodline, and achieved celebrity, which follows on from personal achievement - the difference between Princess Margaret and, say, Woody Allen. He also shows how there is no parallel in history to today's ubiquitous "living" form of celebrity, powered by newspapers, PR departments, magazines and electronic mass media.

SHORTLISTED FOR THE FINANCIAL TIMES AND SCHRODERS BUSINESS BOOK OF THE YEAR 2024

"Original and thought-provoking... A brilliantly erudite account of the major waves in the theory and practice of management" - The Financial Times "The doyen of British thinkers on the evolution of business...One of the great attractions of his [work] is that he stands above and apart from conventional political attitudes" - Literary Review For generations, we have defined a corporation as a business run by a capitalist elite, that uses its accumulated wealth to own the means of production and exercise economic power. That is no longer the reality. In the twenty-first century, our most desired goods and services aren't stacked in warehouses or on container ships: they appear on your screen, fit in your pocket or occupy your head. But even as we consume more than ever before, big business faces a crisis of legitimacy. The pharmaceutical industry creates life-saving vaccines but has lost the trust of the public. The widening pay gap between executives and employees is destabilising our societies. Facebook and Google have more customers than any companies in history but are widely reviled. John Kay, one of the greatest economists of our time, describes how

the pursuit of shareholder value has destroyed some of the leading companies of the twentieth century. Incisive and provocative, this book redefines successful commercial activity and leadership, the knowledge economy and what the future of the modern corporation might be.

In this pathbreaking history, Donna J. Guy shows how feminists, social workers, and female philanthropists contributed to the emergence of the Argentine welfare state through their advocacy of child welfare and family-law reform. From the creation of the government-subsidized Society of Beneficence in 1823, women were at the forefront of the child-focused philanthropic and municipal groups that proliferated first to address the impact of urbanization, European immigration, and high infant mortality rates, and later to meet the needs of wayward, abandoned, and delinquent children. Women staffed child-centered organizations that received subsidies from all levels of government. Their interest in children also led them into the battle for female suffrage and the campaign to promote the legal adoption of children. When Juan Perón expanded the welfare system during his presidency (1946-1955), he reorganized private charitable organizations that had, until then, often been led by elite and immigrant women. Drawing on extensive research in Argentine archives, Guy reveals significant continuities in Argentine history, including the rise of a liberal state that subsidized all kinds of women's and religious groups. State and private welfare efforts became more organized in the 1930s and reached a pinnacle under Juan Perón, when men took over the welfare state and philanthropic and feminist women's influence on child-welfare activities and policy declined. Comparing the rise of Argentina's welfare state with the development of others around the world, Guy considers both why women's child-welfare initiatives have not received more attention in historical accounts and whether the welfare state emerges from the top down or from the bottom up.
