This book is a tribute to  
the symbiotic relation  
between Gandhi and  
Bombay, a relation that  
spanned and  
strengthened over  
decades. The city had  
welcomed him warmly on  
his return from South  
Africa in 1915 and this  
warmth never receded.  
Bombay has earned a  
special place in the  
history of India's freedom  
struggle under Gandhi's  
leadership. In 1919, it was

Gandhi's first nationwide protest, the Satyagraha against the unjust Rowlatt Act in Bombay that propelled him to the position of an undisputed leader. Bombay was also the site for the launch of the Non-cooperation movement in 1920. The response of the city to Gandhi's Salt March in 1930 and his call for the Quit India movement in 1942 was unprecedented. It was in Bombay that Gandhi gave the historic mantra of 'Do or Die'. Protests, processions, meetings, picketing, and strikes organized under his name drew people from all sections of the society. Gandhi's important movements were intertwined with the life of this city and its people. Gandhi was full of determination and the city with vibrancy; this amalgam resulted in the powerful synergy that made history. Bombay became the nerve centre of Gandhi's political activities and agitations. Treatise on Micro, Small and Medium Enterprises National Learning Corporation

The Asia Small and Medium-Sized Enterprise Monitor provides data and analysis as a resource for evidence-based policy design. This year's edition focuses on South Asia. This first volume reviews micro, small, and medium-sized enterprises (MSMEs) at the country and regional levels. It covers Bangladesh, India, Nepal, Pakistan, and Sri Lanka, and examines MSME development, access to finance, and policies and regulations. It notes that revitalizing MSMEs by channeling more growth capital to them will be key to a resilient economic recovery from the pandemic. It highlights opportunities in formalizing MSMEs and connecting them to international markets, expanding digital skills, fostering technology-based start-ups, and supporting youth and women entrepreneurs. This book provides diagnostic tools to inform policy dialogue and investment priorities on urbanization in Colombia, addressing the need to deepen economic connectivity, enhance coordination at a regional and metropolitan scale, and foster efficiency and innovativeness in how cities finance themselves. *Unemployment Insurance in Asia* Current Publications

A solid understanding of how banks operate is crucial to grasp the functioning of modern society. Banks are an intrinsic part of business, finance, and everyday life. Modern banking is regulated by a sophisticated set of laws and regulations that are constantly evolving. *Banking Law and Practice from the Hong Kong Institute of Bankers* outlines and explains these laws and regulations clearly and in detail. This regulatory framework has a deep impact on banks, bankers, and anyone that deals with them, which is the overwhelming majority of society. This high level of impact makes *Banking Law and Practice* an important book as well as a necessary and authoritative reference for

industry professionals, students, and the public at large. *Banking Law and Practice* discusses a range of topics that have a direct bearing on the day-to-day operations of banks, from contracts to how to ensure safe and secure lending. It examines the development and current state of banking legislation and regulation and facilitates bankers and their institutions to shape their practice to meet all the necessary legal and regulatory requirements. Students, industry professionals, and the public at large will welcome the thorough and clear explanations of the legal and regulatory framework in which banks operate. This book is essential reading for candidates studying for the HKIB Associateship Examination and anyone else seeking expert knowledge of the legal and regulatory structure affecting banks in Hong Kong. Topics covered in this book include:

- Contractual Relationships
- Code of Banking Practice
- Money Laundering
- Negotiable Instruments
- Law Related to Securities
- Bankruptcy and Insolvency
- Gandhi in Bombay*

 Concepts of Biology is designed for the single-semester introduction to biology course for non-science majors, which for many students is their only college-level science course. As such, this course represents an important opportunity for students to develop the necessary knowledge, tools, and skills to make informed decisions as they continue with their lives. Rather than being mired down with facts and vocabulary, the typical non-science major student needs information presented in a way that is easy to read and understand. Even more importantly, the content should be meaningful. Students do much better when they understand why biology is relevant to

their everyday lives. For these reasons, Concepts of Biology is grounded on an evolutionary basis and includes exciting features that highlight careers in the biological sciences and everyday applications of the concepts at hand. We also strive to show the interconnectedness of topics within this extremely broad discipline. In order to meet the needs of today's instructors and students, we maintain the overall organization and coverage found in most syllabi for this course. A strength of Concepts of Biology is that instructors can customize the book, adapting it to the approach that works best in their classroom. Concepts of Biology also includes an innovative art program that incorporates critical thinking and clicker questions to help students understand--and apply--key concepts.

Global Publications

Beginning in the 1920s, audiences around the globe were seduced not only by Hollywood films but also by lavish movie theaters that were owned and operated by the major American film companies. These theaters aimed to provide a quintessentially “American” experience. Outfitted with American technology and accoutrements, they allowed local audiences to watch American films in an American-owned

cinema in a distinctly American way. In a history that stretches from Buenos Aires and Tokyo to Johannesburg and Cairo, Ross Melnick considers these movie houses as cultural embassies. He examines how the exhibition of Hollywood films became a constant flow of political and consumerist messaging, selling American ideas, products, and power, especially during fractious eras. Melnick demonstrates that while Hollywood’s marketing of luxury and consumption often struck a chord with local audiences, it was also frequently tone-deaf to new social, cultural, racial,

and political movements. He argues that the story of Hollywood’s global cinemas is not a simple narrative of cultural and industrial indoctrination and colonization. Instead, it is one of negotiation, booms and busts, successes and failures, adoptions and rejections, and a precursor to later conflicts over the spread of American consumer culture. A truly global account, Hollywood’s Embassies shows how the entanglement of worldwide movie theaters with American empire offers a new way of understanding film history and the history of U.S. soft power.
