ANDREA JADA

Environmental Management for Cambridge O Level and IGCSE Student Book Hodder Education
The Somali people are fiercely nationalistic. Colonialism split them into five segments divided between four different powers. Thus decolonization and pan-Somalism became synonymous. In 1960 a partial reunification took place between British Somaliland and Somalia Italiana. Africa Confidential wrote at the time that the new Somali state would never be beset by tribal division but this discounted the existence of powerful clans within Somali society and the persistence of colonial administrative cultures. The collapse of parliamentary democracy in 1969 and the resulting army--and clan--dictatorship that followed led to a civil war in the 'perfect' national state. It lasted fourteen years in the British North and is still raging today in the 'Italian' South. Somaliland re-birthing itself through an enormous solo effort but the viable nation so recreated within its former colonial borders was never internationally recognized and still struggles to exist economically and diplomatically. This book recounts an African success story where the peace so widely acclaimed by the international community has had no reward but its own lonely achievement.

Cambridge IGCSE Maths Revision Guide Hodder Education

Series Editor: Mark Levesley Pearson's resources are designed to be simple, inclusive and inspiring and to support students in studying for Edexcel GCSE (9-1) Physics.

Complete Mathematics for Cambridge IGCSE® Extended Pearson Education
