HOLT DANIELA

Muslims and American Popular Culture Cambridge University Press

By examining the sometimes surprising and unexpected roles that culture and religion have played in mitigating or exacerbating conflicts, this book explores the cultural repertoires from which Southeast Asian political actors have drawn to negotiate the pluralism that has so long been characteristic of the region. Focusing on the dynamics of identity politics and the range of responses to the socio-political challenges of religious and ethnic pluralism, the authors assembled in this book illuminate the principal regional discourses that attempt to make sense of conflict and tensions. They examine local notions of "dialogue," "reconciliation," "civility" and "conflict resolution" and show how varying interpretations of these terms have informed the responses of different social actors across Southeast Asia to the challenges of conflict, culture and religion. The book demonstrates how stumbling blocks to dialogue and reconciliation can and have been overcome in different parts of Southeast Asia and identifies a range of actors who might be well placed to make useful contributions, propose remedies, and initiate action towards negotiating the region's pluralism. This book provides a much needed regional and comparative analysis that makes a significant contribution to a better understanding of the interfaces between region and politics in Southeast Asia.

Religion and Nationalism in Southeast Asia Oxford University Press

This book presents general readers and specialists alike with a broad survey of Islamic political thought in the six centuries from the rise of Islam to the Mongol invasions.

Why Muslims Rebel Univ of California Press

Since its inception in 1974, Southeast Asian Affairs (SEAA) has been an indispensable annual reference for generations of policy-makers, scholars, analysts, journalists, and others. Succinctly written by regional and international experts, SEAA illuminates significant issues and events of the previous year in each of the Southeast Asian nations and the region as a whole. Southeast Asian Affairs 2008 provides an informed and readable analysis of the events and developments in the region in 2007. In the regional section, the first two articles provide the political and economic overview of Southeast Asia. They are followed by an article on India's geopolitics and Southeast Asia, and two articles on ASEAN. Eleven country reviews as well as four country-specific thematic chapters follow, delving into domestic political, economic, security, and social developments during 2007 and their implications for countries in the region and beyond.

Historical Dictionary of the Philippines World Scientific

A History of the Muslim World since 1260 continues the narrative begun by A History of the Muslim World to 1750 by tracing the development of Muslim societies, institutions, and doctrines from the time of the Mongol conquests through to the present day. It offers students a balanced coverage of Muslim societies that extend from Western Europe to Southeast Asia. Whereas it presents a multifaceted examination of Muslim cultures, it focuses on analysing the interaction between the expression of faith and contemporary social conditions. This extensively updated second edition is now in full colour, and the chronology of the book has been extended to include recent developments in the Muslim world. The images and maps have also been refreshed, and the literature has been updated to include the latest research from the last 10 years, including sections dedicated to the roles and status of women within Muslim societies throughout history. Divided chronologically into three parts and accompanied by a detailed glossary, A History of the Muslim World since 1260 is a perfect introduction for all students of the history of Muslim societies.

Missionary Methods A&C Black

Rejecting theories of economic deprivation and psychological alienation, Mohammed Hafez offers a provocative analysis of the factors that contribute to protracted violence in the Muslim world today. Hafez combines a sophisticated theoretical approach and detailed case studies to show that the primary source of Islamist insurgencies lies in the repressive political environments within which the vast majority of Muslims find themselves. Highlighting when and how institutional exclusion and indiscriminate repression contribute to large-scale rebellion, he provides a crucial dimension to our understanding of Islamic politics.

Muslim Rebels Routledge

Offering readers an engaging, accessible, and balanced account of the contributions of American Muslims to the contemporary United States, this important book serves to clarify misrepresentations and misunderstandings regarding Muslim Americans and Islam. Unfortunately, American mass media representations of Muslims—whether in news or entertainment—are typically negative and one-dimensional. As a result, Muslims are frequently viewed negatively by those with minimal knowledge of Islam in America. This accessible two-volume work will help readers to construct an accurate framework for understanding the presence and depictions of Muslims in American society. These volumes discuss a uniquely broad array of key topics in American popular culture, including jihad and jihadis; the hejab, veil, and burka; Islamophobia; Oriental despots; Arabs; Muslims in the media; and mosque burnings. Muslims and American Popular Culture offers more than 40 chapters that serve to debunk the overwhelmingly negative associations of Islam in American popular culture and illustrate the tremendous contributions of Muslims to the United States across an extended historical period.

Muslims of Medieval Latin Christendom, c.1050-1614 Univ of California Press

A new understanding of the transformation of Anatolia to a Muslim society in the thirteenth-fourteenth centuries based on previously unpublished sources.

Medieval Islamic Political Thought Edinburgh University Press

The Historical Dictionary of the Philippines, Third Edition contains a chronology, an introductory essay, an extensive bibliography, and several hundred cross-referenced dictionary entries.

Diminishing Conflicts in Asia and the Pacific Taylor & Francis

Now in its fourth edition, this highly successful global history of the twentieth century is written by four prominent international historians for first-year undergraduate level and upward. Using their

thematic and regional expertise, the authors have produced an authoritative yet accessible and seamless account of the history of international relations in the last century, covering events in Europe, Asia, the Middle East, Africa and the Americas. They focus on the history of relations between states and on the broad ideological, economic and cultural forces that have influenced the evolution of international politics over the last 120 years. The fourth edition is thoroughly updated to take account of the most recent research and global developments, including new material on the impact of the Trump administration on international politics, the rise of China under the leadership of Xi Jinping and the origins of the wars in Ukraine and Gaza. The book is supported by a fully revised companion website including links to further resources and self-testing material, which can be found at www.routledgelearning.com/internationalhistory20c.

Guide to Islamist Movements William Carey Publishing

An innovative study which explores how the presence of Muslim communities transformed Europe and stimulated Christian society to define itself.

Muslim Resistance in Southern Thailand and Southern Philippines Routledge

This groundbreaking three-volume encyclopedia is the first to focus exclusively on the revolutionary movements that have changed the course of history from the American and French Revolutions to the present. ABC-CLIO is proud to present an encyclopedia that reaches around the globe to explore the most momentous and impactful political revolutions of the last two-and-a-half centuries, exploring their origins, courses, consequences, and influences on subsequent individuals and groups seeking to change their own governments and societies. In three volumes, Revolutionary Movements in World History covers 79 revolutions, from the American and French uprisings of the late 18th century to the rise of communism, Nazism, and fascism; from Ho Chi Minh and Fidel Castro to the Ayatollah, al Qaeda, and the fall of the Berlin wall. Written by leading experts from a number of nations, this insightful, cutting-edge work combines detailed portrayals of specific revolutions with essays on important overarching themes. Full of revealing insights, compelling personalities, and some of the most remarkable moments in the world's human drama, Revolutionary Movements in World History offers a new way of looking at how societies reinvent themselves.

Fighting Armed Conflicts in Southeast Asia Routledge

The civil war in the Islamic Southern Philippines is one of the longest-lasting conflicts in Southeast Asia. This book dates back to a workshop on that conflict at the Department of Political Science of the University of Gottingen, Germany. The particular interest in the Moro conflict in Gottingen is due to the fact that a family from that city was among those tourists who were kidnapped in Sipadan (Malaysia) by the Abu Sayyaf group in spring 2000 and held hostage on the island of Jolo (Sulu) for almost half a year. Although the geographical and cultural backgrounds of most of the contributors to this volume differ from the parties involved in the conflict, the editors hope that this volume offers adequate views, theoretical approaches, and methodologies, which prove helpful in understanding and eventually ameliorating the conditions of the people living in "Moro land".

Conflict in Moro land: Prospects for Peace? (Penerbit USM) Cambridge Scholars Publishing

A finalist for World Magazine's Book of the Year! Scholars, journalists, and even politicians uphold Muslim-ruled medieval Spain—"al-Andalus"—as a multicultural paradise, a place where Muslims, Christians, and Jews lived in harmony. There is only one problem with this widely accepted account: it is a myth. In this groundbreaking book, Northwestern University scholar Darío Fernández-Morera tells the full story of Islamic Spain. The Myth of the Andalusian Paradise shines light on hidden history by drawing on an abundance of primary sources that scholars have ignored, as well as archaeological evidence only recently unearthed. This supposed beacon of peaceful coexistence began, of course, with the Islamic Caliphate's conquest of Spain. Far from a land of religious tolerance, Islamic Spain was marked by religious and therefore cultural repression in all areas of life and the marginalization of Christians and other groups—all this in the service of social control by autocratic rulers and a class of religious authorities. The Myth of the Andalusian Paradise provides a desperately needed reassessment of medieval Spain. As professors, politicians, and pundits continue to celebrate Islamic Spain for its "multiculturalism" and "diversity," Fernández-Morera sets the historical record straight—showing that a politically useful myth is a myth nonetheless.

Muslim Rulers and Rebels Univ of California Press

This comprehensive thematic encyclopedia focuses on the Philippines, and explores the geography, history, and society of this important island nation. The Philippines is a nation that has experience being ruled by two separate colonial powers, home to a people who have had strong attachments to democratic politics, with a culture that is a rich mix of Chinese, Spanish, and American influences. What are some important characteristics of contemporary daily life and culture in the Philippines today? Thematic chapters examine topics such as government and politics, history, food, etiquette, education, gender, marriage and sexuality, media and popular culture, music, art, and more. Each chapter opens with a general overview of the topic and is followed by alphabetically arranged entries that hone in even closer on the topic. Sidebars and illustrations appear throughout the text, and appendixes cover a glossary, facts and figures, holidays chart, and vignettes that paint a picture of a typical "Day in the Life."

Modern Philippines Oxford University Press

Preface -- The trajectory of imagined wars -- The apocalyptic war of the Islamic State -- The militant struggle of Mindanao Muslims -- The fight for Khalistan in India's Punjab -- How imagined wars end -- Interviews.

Shapers of Islam in Southeast Asia Macmillan + ORM

The Kharijites were the first sectarian movement in Islamic history, a rebellious splinter group that separated itself from mainstream Muslim society and set about creating, through violence, an ideal community of the saved. Their influence in the political and theological life of the nascent faith has ensured their place in both critical and religious accounts of early Islamic history. Based on the image of sect fostered by the Islamic tradition, the name Kharijite defines a Muslim as an over-pious zealot whose ideas and actions lie beyond the pale of normative Islam. After a brief look at Kharijite origins and the traditional image of these early rebels, this book focuses on references to the Kharijites in Egypt from the 1950s to the 1990s. Jeffrey T. Kenney shows how the traditional image of the Kharijites was reawakened to address the problem of radical Islamist opposition

movements. The Kharijites came to play a central role in the rhetoric of both religious authorities, whose official role it is to interpret Islam for the masses, and the secular state, which cynically turns to Islamic ideas and symbols to defend its legitimacy. Even those Islamists who defend militant tactics, and who are themselves tainted by the Kharijite label, become participants in the discourse surrounding Kharijism. Although all Egyptians agree that modern Kharijites represent a dangerous threat to society, serious debates have arisen about the underlying social, political and economic problems that lead Muslims down this destructive path. Kenney examines these debates and what they reveal about Egyptian attitudes toward Islamist violence and its impact on their nation. Long before 9/11, Egyptians have been dealing with the problem of Islamist violence, frequently evoking the Kharijites. This book represents an important contribution to Islamic studies and Middle East studies, adding to our understanding of how the Islamic past shapes the present discourse surrounding Islamist violence in one Muslim society.

The Myth of the Andalusian Paradise Edinburgh University Press

This study analyzes the ongoing conflicts in southern Thailand and southern Philippines between indigenous Muslim minorities and their respective central governments. In particular, it investigates and interrogates the ideological context and content of conflicts in southern Thailand and southern Philippines insofar as they pertain to Islam and radicalism in order to assess the extent to which these conflicts have taken on a greater religious character and the implications this might have on our understanding of them. In the main, the monograph argues that while conflicts in southern Thailand and southern Philippines have taken on religious hues as a consequence of both local and external factors, on present evidence they share little with broader radical global Islamist and Jihadist ideologies and movements, and their contents and contexts remain primarily political, reflected in the key objective of some measure of self-determination, and local, in terms of the territorial and ideational boundaries of activism and agitation. Furthermore, though both conflicts

appear on the surface to be driven by similar dynamics and mirror each other, they are different in several fundamental ways.

Global Rebellion Taylor & Francis

Since the publication of the 2005 Human Security Report, scholars and policy-makers have debated the causes, interpretation and implications of what the report described as a global decline in armed conflict since the end of the Cold War. Focusing on the Asia-Pacific region, this book analyses the causes and patterns of this decline. In few regions has the apparent decline in conflict been as dramatic as in the Asia-Pacific, with annual recorded battle deaths falling in the range of 50 to 75 percent between 1994 and 2004. Drawing on a wide range of case studies, this book looks at internal conflicts based on the mobilization of ethnic and nationalist grievances, which have been the most costly in human lives over the last decade. The book identifies structures, norms, practices and techniques that have either fuelled or moderated conflicts. As such, it is an essential read for students and scholars of international relations, peace and conflict studies and Asian studies.

Policing America's Empire Routledge

Cosmopolitan ideals and pluralist tendencies have been employed creatively and adapted carefully by Muslim individuals, societies and institutions in modern Southeast Asia to produce the necessary contexts for mutual tolerance and shared respect between and within different groups in society.

Organised around six key themes that interweave the connected histories of three countries in Southeast Asia - Singapore, Malaysia and Indonesia - this book shows the ways in which historical actors have promoted better understanding between Muslims and non-Muslims in the region. Case studies from across these countries of the Malay world take in the rise of the network society in the region in the 1970s up until the early 21st century, providing a panoramic view of Muslim cosmopolitan practices, outlook and visions in the region.

Regional Minorities and Development in Asia Cambridge University Press

Describes the latest events and trends in terrorism against the United States.
