YOGA FOR EXERCISE. One of the great yoga figures of our time, Sri K. Pattabhi Jois brought Ashtanga yoga to the West more than thirty years ago. Based on flowing, energetic movement coordinated with the breath,

Ashtanga and the many forms of vinyasa yoga that grow directly out of it have become the most widespread and influential styles practiced today. "Yoga Mala" - a 'garland of yoga' - is Jois' authoritative guide to Ashtanga. In it, he outlines the ethical principles and philosophy underlying the discipline, explains important terms and concepts, and guides the reader through Ashtanga's Sun Salutations and the subsequent primary sequence of forty-two asanas, or poses, precisely describing how to execute each position and what benefits each provides. It is a foundational work on yoga by a true master.

The canoe was now approaching the land. The bay opened out, and a gap in the white surf of the reef marked where the little river ran out to the sea; the thicker and deeper green of the virgin forest showed its course down the distant hill slope. The forest here came close

to the beach. Far beyond, dim and almost cloudlike in texture, rose the mountains, like suddenly frozen waves. The sea was still save for an almost imperceptible swell. The sky blazed.

SOON TO BE A HULU SERIES • “An astonishing comic writer.”—Neil Gaiman Nominated as one of America’s best-loved novels by PBS’s The Great American Read It’s an ordinary Thursday morning for Arthur Dent . . . until his house gets demolished. The Earth follows shortly after to make way for a new hyperspace express route, and Arthur’s best friend has just announced that he’s an alien. After that, things get much, much worse. With just a towel, a small yellow fish, and a book, Arthur has to navigate through a very hostile universe in the company of a gang of unreliable aliens. Luckily the fish is quite good at languages. And the book is The

Hitchhiker’s Guide to the Galaxy . . . which helpfully has the words DON’T PANIC inscribed in large, friendly letters on its cover. Douglas Adams’s mega-selling pop-culture classic sends logic into orbit, plays havoc with both time and physics, offers up pithy commentary on such things as ballpoint pens, potted plants, and digital watches . . . and, most important, reveals the ultimate answer to life, the universe, and everything. Now, if you could only figure out the question. . . .

They had entertained a good deal during the winter; much of the time had also been passed in New Orleans in various forms of mild dissipation. She was

looking forward to a period of unbroken rest, now, and undisturbed tete-a-tete with her husband, when he informed her that Gouvernail was coming up to stay a week or two. This was a man she had heard much of but never seen. He had been her husband's college friend; was now a journalist, and in no sense a society man or "a man about town," which were, perhaps, some of the reasons she had never met him. But she had unconsciously formed an image of him in her mind. She pictured him tall, slim, cynical; with eye-glasses, and his hands in his pockets; and she did not like him. Gouvernail was slim enough, but he wasn't very tall nor

very cynical; neither did he wear eyeglasses nor carry his hands in his pockets. And she rather liked him when he first presented himself. But why she liked him she could not explain satisfactorily to herself when she partly attempted to do so. She could discover in him none of those brilliant and promising traits which Gaston, her husband, had often assured her that he possessed. On the contrary, he sat rather mute and receptive before her chatty eagerness to make him feel at home and in face of Gaston's frank and wordy hospitality. His manner was as courteous toward her as the most exacting woman could require; but he made no direct appeal to her approval or even esteem.
