A brain-bending exploration of real-life zombies and mind controllers, and what they reveal to us about

nature—and ourselves. *Zombieism* isn't just the stuff of movies and TV shows like *The Walking Dead*. It's real, and it's happening in the world around us, from wasps and worms to dogs and moose—and even humans. In *Plight of the Living Dead*, science journalist Matt Simon documents his journey through the bizarre evolutionary history of mind control. Along the way, he visits a lab where scientists infect ants with zombifying fungi, joins the search for kamikaze crickets in the hills of New Mexico, and travels to Israel to meet the wasp that stings cockroaches in the brain before leading them to their doom. Nothing Hollywood dreams up can match the brilliant, horrific zombies that natural selection has produced time and time again. *Plight of the Living Dead* is a surreal dive into a world that would be totally unbelievable if very smart scientists didn't happen to be proving it's real, and most troublingly—or maybe intriguingly—of all: how even we humans are affected. “Fantastic . . . You'll be thinking about this book long after you're done reading it.” —Kelly Weinersmith, *New York*

Diana Gabaldon, #1 New York Times bestselling author of the acclaimed *Outlander* series, delivers a captivating tale of history and suspense, with a touch of the supernatural, featuring Lord John Grey. This novella, originally published as "Lord John and the Plague of Zombies," is now available as a standalone eBook. Lord John Grey, a lieutenant-colonel in His Majesty's army, arrives in Jamaica with orders to quash a slave rebellion brewing in the mountains. But a much deadlier threat lies close at hand. The governor of the island is being menaced by zombies, according to a

servant. Lord John has no idea what a zombie is, but it doesn't sound good. It sounds even worse when hands smelling of grave dirt come out of the darkness to take him by the throat. Down These Strange Streets Ex Parte Press
 Why has the zombie become such a pervasive figure in twenty-first-century popular culture? John Vervaeke, Christopher Mastropietro and Filip Miscevic seek to answer this question by arguing that particular aspects of the zombie, common to a variety of

media forms, reflect a crisis in modern Western culture. The authors examine the essential features of the zombie, including mindlessness, ugliness and homelessness, and argue that these reflect the outlook of the contemporary West and its attendant zeitgeists of anxiety, alienation, disconnection and disenfranchisement. They trace the relationship between zombies and the theme of secular apocalypse, demonstrating that the zombie draws its power from being a perversion of the Christian mythos of death and resurrection. Symbolic of a lost Christian worldview, the zombie represents a world that can no longer explain itself, nor provide us with instructions for how to live within it. The concept of 'domicide' or the destruction of home is developed to describe the modern crisis of meaning that the zombie both represents and reflects. This is illustrated using case studies including the relocation of the Anishinaabe of the Grassy Narrows First Nation, and the upheaval of population displacement in the Hellenistic period. Finally, the authors invoke

and reformulate symbols of the four horseman of the apocalypse as rhetorical analogues to frame those aspects of contemporary collapse that elucidate the horror of the zombie. *Zombies in Western Culture: A Twenty-First Century Crisis* is required reading for anyone interested in the phenomenon of zombies in contemporary culture. It will also be of interest to an interdisciplinary audience including students and scholars of culture studies, semiotics, philosophy, religious studies, eschatology, anthropology, Jungian studies, and sociology.

This dashing character first appeared in Gabaldon's blockbuster, Voyager, and readers cheered him on in the New York Times bestselling Lord John and the Private Matter. Diana Gabaldon takes readers back to eighteenth-century Britain as Lord John Grey pursues a deadly family secret as well as a clandestine love affair, set against the background of the Seven Years War. Seventeen years earlier, Grey's father, the Duke of Pardloe, shot himself, days before he was to be accused of being a Jacobite traitor. By raising

From barracks and parade grounds to the battlefields of Prussia and the stony fells of the Lake District, Lord John's struggle to find the truth leads him through danger and passion, ever deeper, toward the answer to the question at the centre of his soul-what is it that is most important to a man? Love, loyalty, family name? Self-respect, or honesty? Surviving both the battle of Krefeld and a searing personal betrayal, he returns to the Lake District to find the man who may hold the key to his quest: a Jacobite prisoner named Jamie Fraser. Here, Grey finds his truth and faces a final choice: between honour and life itself.
