Services Marketing Interactive Approach Pearson College Division

The rapid increase in global services during the last few decades is without doubt one of the most challenging social, cultural, political, and especially economic, forces of our time. Services have supplanted agriculture, manufacturing and resources, as the primary source of international competitive advantage in many countries, providing wealth, employment, and almost unlimited future opportunities for growth, whether in traditional or more innovative forms. This book explores the strategic management of services through an Integrated Services Management Model which links operational, marketing, financial and human resource management functions, within a broad and diverse collection of international, regional, and local service contexts. It contains numerous case examples, student projects and exercises, designed to illustrate common problems and innovative approaches, with a particular focus on the Asia Pacific and Australasian regions.

Banking has been playing an essential role in the Indian economy. Further, the (LPG) Liberalization, Privatization and Globalization in 1991 ushered a new era in banking sector (Vijay et al. (1996). This resulted in relentless quest for quality and customer satisfaction. The entry of private and foreign banks the situation escalated to such a point where competition went haywire. The banking industry has transformed and is transforming consistently with new standards in all

aspects of services such as speed, quality, accuracy and efficiency. This has brought a challenge of sustaining customer satisfaction. Most of this is because; in general people are adamant to change. However, with an ever-increasing change in recent years, it has been challenging in maintaining the satisfaction level of the customers (Gormley, 2010). The recent demonetization wave in 2016 and implementation of digitization/cashless system in banking are few examples that changed the habit of customers as well as the bankers bringing on certain advantages and disadvantages at the same time (Mehta et al. 2016). The disadvantages from bankers' point of view can be termed as bankers' inconvenience.
