<b>AMIR MUHAMMAD</b>	
<b>The Right Thing To Do: Basic Readings in Moral Philosophy</b> Routledge	
The fifth edition of Michael L. Morgan's Classics of Moral and Political Theory broadens the scope and increases the versatility of this landmark anthology by offering new selections from Aristotle's Politics, Aquinas' Disputed Questions on Virtue and Treatise on Law, as well as the entirety of Locke's Letter Concerning Toleration, Kant's To Perpetual Peace, and Nietzsche's On the Advantage and Disadvantage of History for Life.	
<i>Ayn Rand's Normative Ethics</i> Random House Trade	
Anthology of readings in moral philosophy.	
<b>The Truth about the World: Basic Readings in Philosophy</b> McGraw-Hill Education	
Western philosophy and religion, James Rachels argues, have been shaken by the implications of Darwin's work, most notably the controversial idea that humans are simply a more complex kind of animal. Here, Rachels assesses a number of studies that suggest how closely humans are linked to other primates in behavior, and then goes on to show how this idea undercuts the work of many prominent philosophers. Created from Animals offers a provocative look at how Darwinian evolution undermines many tenets of traditional philosophy and religion. Rachels begins by examining Darwin's own life and work, presenting an astonishingly vivid and compressed biography. We see Darwin's studies of the psychological links in evolution (such as emotions in dogs, and the "mental powers" of worms), and how he addressed the moral implications of his work, especially in his concern for the welfare of animals. Rachels goes on to present a lively and accessible survey of the controversies that followed in Darwin's wake, ranging from Herbert Spencer's Social Darwinism to Edward O. Wilson's sociobiology, and discusses how the work of such influential intellectuals as Descartes, Hume, Kant, T.H. Huxley, Henri Bergson, B.F. Skinner, and Stephen Jay Gould has contributed to--or been overthrown by--evolutionary science. With this sweeping survey of the arguments, the philosophers, and the deep implications surrounding Darwinism, Rachels lays the foundations for a new view of morality. Virbrantly written and provocatively argued, Created from Animals offers a new perspective on issues ranging from suicide to euthanasia to animal rights.	
<b>Ethical theory</b> OUP Oxford	
The author examines the ethics of euthanasia, and proposes a new moral code. ...an important and cogent contribution to the overall debate...'___ Church Times .	
<i>Morality and Moral Controversies</i> McGraw-Hill Humanities/Social Sciences/Languages	
"An introduction to ethical theory and the various questions that must be decided in order to have a consistent and comprehensive ethical theory." -- AbeBooks.com viewed May 3, 2021.	
<b>Being Ethical: Classic and New Voices on Contemporary Issues</b> Broadview Press	
This collection of essays makes readily accessible many of the most significant and influential discussions of privacy.	
<b>Problems from Philosophy</b> Routledge	
Socrates said that moral philosophy deals with 'no small matter, but how we ought to live'. Beginning with a minimum conception of what morality is, the author offers discussions of the most important ethical theories. He includes treatments of such topics as cultural relativism, ethical subjectivism, psychological egoism, and ethical egoism.	
<i>The End of Life</i> McGraw-Hill Education	
The global financial crisis evidenced the corrosive effects of unethical behaviour upon the banking industry. The recurrence of misbehaviour in the financial sector, including fraud and manipulations of market indices, suggests the need to establish a banking culture that conforms to the highest standards of ethical and professional behaviour. This Research Handbook on Law and Ethics in	

Banking and Finance focuses on the role that law should play and the effectiveness of newly introduced regulations and supervisory actions as a driver for ethical conduct so as to reconnect the interests of bankers and financiers with the interests of society.

**Looseleaf for The Elements of Moral Philosophy** Routledge

Contemporary Moral Issues is an anthology that provides a selection of readings on contemporary social issues revolving around three general themes: Matters of Life and Death, Matters of Equality and Diversity, and Expanding the Circle, which includes duties beyond borders, living together with animals, and environmental ethics. The text contains a number of distinctive, high-profile readings and powerful narratives, including Jonathan Foer's "Eating Animals," Eva Feder Kittay's "On the Ethics of Selective Abortion for Disability," and Susan M. Wolf's "Confronting Assisted Suicide and Euthanasia: My Father's Death." Each set of readings is accompanied by an extensive introduction, a bibliographical essay, pre-reading questions, and discussion questions.

**A Practical Companion to Ethics** McGraw-Hill Education

Collection of original essays by leading researchers on current approaches to moral philosophy.

**The Moral Landscape** OUP USA

Esteemed moral philosopher James Rachels here collects fifteen essays, some classic and others extensively revised, on the nature and limits of moral reasoning. Rachels argues that, rather than simply expressing societal conventions, moral philosophy can subvert received opinion and replace it with something better. Combining a concern for ethical theory with a discussion of practical moral issues such as euthanasia, the rights of animals, privacy, and affirmative action. Can Ethics Provide Answers is an excellent collection for students, scholars, and anyone concerned with the degree to which our principles can guide our policies.

**The Philosophy of Elizabeth Anscombe** McGraw-Hill Humanities/Social Sciences/Languages

The Elements of Moral Philosophy 9e by James Rachels and Stuart Rachels is a best-selling text for undergraduate courses in ethics. Thirteen thought-provoking chapters introduce readers to major moral concepts and theories in philosophy through clear understandable explanations and compelling discussions. Chapters are written so that they may be read independently of one another thus providing greater flexibility for students and instructors

**The Elements of Moral Philosophy ...** Hackett Publishing

Firmly established as the standard text for undergraduate courses in ethics, James Rachels and Stuart Rachels' The Elements of Moral Philosophy introduces readers to major moral concepts and theories through eloquent explanations and compelling, thought-provoking discussions.

*Modern Moral Philosophy* Oxford University Press on Demand

For thirty years, Peter Singer's Practical Ethics has been the classic introduction to applied ethics. For this third edition, the author has revised and updated all the chapters and added a new chapter addressing climate change, one of the most important ethical challenges of our generation. Some of the questions discussed in this book concern our daily lives. Is it ethical to buy luxuries when others do not have enough to eat? Should we buy meat from intensively reared animals? Am I doing something wrong if my carbon footprint is above the global average? Other questions confront us as concerned citizens: equality and discrimination on the grounds of race or sex; abortion, the use of embryos for research and euthanasia; political violence and terrorism; and the preservation of our planet's environment. This book's lucid style and provocative arguments make it an ideal text for university courses and for anyone willing to think about how she or he ought to live.

**Practical Ethics** Columbia University Press

Firmly established as the standard text for undergraduate courses in ethics, this concise, lively book combines clear explanations of the main theories of ethics with discussions of interesting examples. Topics covered include famine relief, euthanasia, homosexuality, and the treatment of animals. The text's versatility allows it to be widely used not only in ethical theory courses, but also in applied ethics courses of all kinds.

*The Right Thing To Do: Basic Readings in Moral Philosophy* HarperCollins Publishers

Problems from Philosophy is an introductory text organized around the great philosophical problems—the existence of God, the nature of the mind, human freedom, the limits of knowledge, and the truth about ethics. It begins by reflecting on the life of the first great philosopher, Socrates. Then it takes up the fundamental question of whether God exists. Next comes a discussion of death and the soul, which leads to a chapter about persons. The later chapters consider whether objective knowledge is possible in science and ethics. Problems from Philosophy represents the final work of philosopher James Rachels. In it, he brings the same liveliness and clarity to the introduction of philosophy present in his many other best-selling texts. Problems from Philosophy has been revised by James Rachels' son Stuart, who has carefully refined his father's work to further strengthen its clarity and accessibility. The fourth edition features revisions on discussions of free will, artificial intelligence, idealism, and Kantian ethics.

*Vice & Virtue in Everyday Life* Cambridge University Press

Sam Harris dismantles the most common justification for religious faith--that a moral system cannot be based on science.

*Why Be Moral?* Cambridge University Press

Ethics introduces the issues and controversies of contemporary moral philosophy to undergraduate students who have already done an introductory course in philosophy. It will help students to think more clearly about how to form their moral beliefs in the wisest and most rational way. The basic approaches to metaethics and normative ethics are related to specific issues, particularly those of racism, education, and abortion. Written in a clear and concise way by an experienced textbook author, Ethics will also be of interest to the general reader. Unique features of the textbook: \* boxed key ideas \* Glossary of philosophical terms \* Chapter summaries and study questions \* Annotated further reading and Internet Web resources There is an associated website for teachers and students at [www.routledge.com/routledge/philosophy/cip/ethics.htm](http://www.routledge.com/routledge/philosophy/cip/ethics.htm)

**Can Ethics Provide Answers?** Oxford University Press, USA

A Practical Companion to Ethics, Third Edition, is a concise and accessible introduction to the basic attitudes and skills that make ethics work, like thinking for oneself, creative and integrative problem-solving, and keeping an open mind. This unique volume illuminates the broad kinds of practical intelligence required in moral judgment, complementing the narrower theoretical considerations that often dominate ethics courses. It offers practical instruction in problem-solving by demonstrating how to frame an ethical problem and deal effectively with ethical disagreements. The book also presents ethics as an ongoing learning experience, helping students to deal with both the complexities of their individual lives and with the larger issues that exist in the world around them. The third edition retains the most popular features of the previous edition, including challenging and relevant end-of-chapter exercises; brief text boxes that define key terms and review core strategies; and short dialogues that illustrate ethical dilemmas. The optimistic tone and brisk pace of the narrative provide an entertaining and intelligent guide to "everyday" morality. The third edition includes a more extensive treatment of ethics and religion (Chapter 2), which provides the framework for a moral dialogue that reaches across sectarian divides. It also contains a revised final chapter on the continuously unfolding nature of ethical understanding and an expanded appendix that gives detailed advice on writing various types of ethics papers. Ideal for introductory courses in ethics and applied ethics, A Practical Companion to Ethics, Third Edition, can also be used in any course related to critical thinking.

**Created from Animals** Rowman & Littlefield

What reasons do we have to be moral, and are these reasons more compelling than the reasons we have to pursue non-moral projects? Ever since the Sophists first raised this question, it has been a focal point of debate. Why be Moral? is a collection of new essays on this fundamental philosophical problem, written by an international team of leading scholars in the field.
